

# **Municipal Hazardous or Special Waste Program Plan Addendum**

## **Transport Services and Fees**

Stewardship Ontario will pay transport fees to haulers of MHSW from non-municipal channels within Ontario that deliver acceptable material to any processor, either within or outside the province, registered with Stewardship Ontario.

The transport fees are intended to provide an additional financial incentive to haulers to achieve greater recovery and diversion of MHSW from disposal.

The transport fees are defined in Appendix 5B for the purpose of setting year 1 steward's fees and projecting approximate program costs in future years.

The actual transport fees that will be paid in Year 1 and any subsequent year will be established by Stewardship Ontario in consultation with service providers. This consultation will include the use of surveys of haulers to assess the effectiveness of the transport fees in stimulating an increase in recovery and diversion.

Stewardship Ontario will register haulers based on performance criteria and vendor standards, including but not limited to:

- Government required approvals
- Insurance
- Tracking and reporting capability

These criteria will be reviewed and refined as required.

## **Processing Services and Fees**

Stewardship Ontario will pay processing fees to processors of MHSW either within or outside the province registered with Stewardship Ontario. Registered processors will be paid for receiving and processing MHSW from Ontario sources delivered by any transport service provider registered with Stewardship Ontario.

The processing fees are defined in Appendix 5B for the purpose of setting year 1 steward's fees and projecting approximate program costs in future years.

The actual processing fees to be paid in Year 1 and any subsequent year will be established by Stewardship Ontario in consultation with service providers. This consultation will include the use of surveys of processors to assess the effectiveness of the processing fees in stimulating an increase in recovery and diversion.

Stewardship Ontario will register processing service providers based on performance criteria and vendor standards, including but not limited to:

- Government required approvals
- Insurance
- Processes the material in a manner consistent with the MHSW Program Plan
- Tracking and reporting capability

These criteria will be reviewed and refined as required.

For greater certainty, the reference on page 100 of the MHSW Program Plan to "a call for tenders" will be discharged through the surveys referenced above.
